Architecture, made *modular*.

Nua brings architect-grade living spaces to Irish gardens — engineered abroad, certified at home, delivered whole. We sell calm, considered structures for people who want more room to live, work and rest without the years and the mess of a build. The brand should feel the way the product feels: precise, warm, and unmistakably designed. Never loud. Never busy. Confident enough to leave space.

The Mark

The mark is a modular cube enclosing the “N” monogram, locked to the wordmark beneath. Preserve clear space equal to the height of the cube on every side. Do not stretch, rotate, recolour, add effects, or separate the mark from the wordmark.

PRIMARY · FOREST ON WHITE / CREAM

REVERSED · CREAM ON FOREST

Colour

A disciplined palette built on deep forest green and warm off-white. Forest and Cream carry the brand; Pine anchors text; Mist and Stone are for support only. White and Cream are never mixed on the same surface.

PRIMARY Forest HEX 1F5132 RGB 31 · 81 · 50 CMYK 62 0 38 68	INK / TEXT Pine HEX 12271B RGB 18 · 39 · 27 CMYK 54 0 31 85	GROUND Cream HEX F5F2EB RGB 245 · 242 · 235 CMYK 0 1 4 4	GROUND White HEX FFFFFFFF RGB 255 · 255 · 255 CMYK 0 0 0 0	SUPPORT Mist HEX DDE3D6 RGB 221 · 227 · 214 CMYK 3 0 6 11	SUPPORT Stone HEX 6E675A RGB 110 · 103 · 90 CMYK 0 6 18 57
---	--	---	---	--	---

Typography

Two typefaces, no exceptions. Fraunces for expression, Inter for information. Restraint in weight and generosity in space do the work.

FRAUNCES

Display & headlines · high-contrast serif

Aa

Considered by design.

Light — statements

Regular — headings

Italic — accents

INTER

Body, labels & UI · neutral sans

Aa

Clear, quiet, and legible at any size.

Light — long copy

Medium — labels & tracked caps

Semibold — emphasis

DISPLAY

Fraunces Light · 46–150pt

HEADING

Fraunces Regular · 22–34pt

BODY

Inter Light · 10–11pt / 1.8

LABEL

Inter Medium · 8pt · .30em caps

Voice

We speak the way we build — *plainly*,
warmly, and with nothing wasted.

WE SAY	A calm space at the end of the garden.
NOT	Revolutionary game-changing pod solutions!
WE SAY	Certified to Irish standards. Delivered whole.
NOT	The best pods money can possibly buy!!!

Confident

We state facts, not superlatives. The quality speaks; we don't oversell it.

Warm

Human and grounded. We write for a person planning their home, not a market.

Precise

Specific numbers, clear steps, real detail. Vagueness reads as uncertainty.

Spare

Short sentences. One idea each. We cut a line before we crowd one.

Art Direction

Natural light, real materials, generous negative space. Photograph the pod as architecture — low, wide, unhurried — set in Irish greenery and soft weather.

DO

Soft, directional daylight. Wide architectural framing. Real Irish gardens, timber, glass, greenery. Room to breathe around the subject.

AVOID

Harsh flash, heavy filters, saturated skies, cluttered staging, obvious stock, or anything that reads as a render rather than a place.

TREATMENT

True-to-life colour, gentle contrast, a faint warm cast. Let cream and forest carry the frame. Crop tight on one honest detail when in doubt.

In Use

Three repeatable post formats. Same palette, same type, endless content.
Square 1080 × 1080.

How to build a post: pick one format. Set the message in Fraunces, keep supporting text in tracked Inter caps, and let the ground colour do the work — forest for statements, cream for product, white for announcements. One idea per post. Always sign off with the wordmark or nuamodular.com.

Live Better, Build Smarter.
